

myflexpay

Hi {{employee.firstname}}

Have you heard the news? {{company.name}} has partnered with OneSource Virtual to let you track and instantly access up to {{employee.max_transfer_percent}}% of your earnings as soon as you've earned them - all through the handy myFlexPay app.

Whether you need to pay an unexpected bill, make urgent repairs to your car, or just track how much you've earned that pay period - the myFlexPay app is here to put you in control of your money that you otherwise wouldn't have access to until the next payday.

We only give you access to the money you've already earned, so there's **no loans and no interest** - just a small, fixed fee of \$2.99 if you want your money right away, or \$1.99 for the next day transfer option.

In fact, **80% of our users say having myFlexPay significantly reduces their financial stress** (and who doesn't want that?).

Have a great day!

The myFlexPay Team
